Materials Needed

One skein or less of #5 weight bulky yarn or 2 strands of #4 worsted weight yarn held together.

Size P hook

2 large buttons (large enough to fit very snuggly in between stitches of the wrap) - I used 1.5" buttons.

Measuring tape

Darning needle for weaving in ends

Stitches Needed and Abbreviations

SC- Single Crochet

Ch- Chain

DC- Double Crochet

Approximate head sizes

Toddler (1-3 years) – 18-20”

Child (3-10 years)- 19-20.5”

Adult – 20-22”

*For most accurate fit measure the person the head wrap will be for around the head at the forehead. Then chain until it reaches 1” less than the head circumference, slightly stretched.

Row 1) Ch. to 1” less than desired length, slightly stretched.

Row 2) DC in 2rd chain from the hook and continue to DC across to the last stitch, ch 2 and turn (ch 2 counts as 1st DC for next row).

Row 3) DC in the next st and continue to DC across to the last stitch, ch 2 and turn (ch 2 counts as 1st DC for next row).

Row 4) DC in the next st and continue to DC across to last stitch, ch 1 and turn. (ch 1 does not count as first stitch)

Row 5) SC in the same st as ch 1 and continue to SC across to the last stitch.

SC around ends of DC rows on to the other side, using 2 SC in each corner stitch.

Row 6) SC across bottom ch stitches to the last ch stitch.

SC around ends of DC rows to the beginning SC, using 2 SC in each corner stitch.

Join to first SC, fasten off, and weave in ends.

Sew buttons on to one end, one above the other, as pictured below.

Weave in remaining ends.

Buttons should snuggly slip in between DC stitches to attach the ends to each other around person’s head.
