PATTERN NOTES:

1. Sections A & E: Basket Weave stitch (23 sts; *worsted weight 35 sts*); Sections B & D: Woven Stitch (22 sts; *worsted weight 34 sts*); Section D: Single Crochet Ribbing Stitch (21 sts; *worsted weight 33 sts*). Number of stitches in rows varies slightly for each pattern to keep an even width, accommodating inherent looseness or tightness of stitch pattern. *Worsted weight instructions and st counts are in italics.*
2. Turning ch of each row counts as a stitch.
3. Directions for a matching headband/ear-warmer in the Woven Stitch are given in Appendix A. It's a great use of the leftover yarn.

SPECIAL STITCHES:

- Front Post Double Crochet (fpdc): yo, entering from the front of your fabric, insert hook around the post of the designated stitch, yo and pull up a loop (3 loops on hook), yo and draw hook through 2 loops, yo and pull hook through remaining 2 loops. Repeat as directed.
- Back Post Double Crochet (bpdc): yo, entering from the back of your fabric, insert hook around the post of the designated stitch, yo and pull up a loop (3 loops on hook), yo and draw hook through 2 loops on the hook, yo, draw hook through remaining 2 loops. Repeat as directed.
- Woven Stitch: This stitch has 2 parts to it and that's why you skip a stitch in between to keep the st count even. The first part is not quite a dc (one less yo), although you will be tempted to make one until you get used to the difference. The second part is not quite a hdc (one less yo), and again you will be tempted to hdc until you get into the rhythm. Here goes: yo,

insert hook into designated st, pull up a loop and draw through 1 loop on hook (2 loops remaining), yo and draw through 2 loops remaining on hook. First half of woven stitch made. Yo, insert hook in to same st, pull up a loop and draw through 2 loops on hook (woven st completed). There are several good tutorials on YouTube that you can view.

- Single crochet back loop only (sc blo): Insert your hook ONLY under the back loop, without the hook going under the front loop, complete a sc stitch. When you crochet a stitch, you automatically create two loops at the top of the stitch. The back loop is always the loop furthest away from you.
