

The Dying Arts

"Vienna"

Vienna is an original from "The Dying Arts". You can sell the garments you make with credit, but you cannot resell the pattern as your own, thank you.

Sizes: Made to Your Measurement

Hook: 3.5mm Hook (E-4) This is only a recommendation, because we use your measurements you can use any sized hook!

Materials: 1 100gram skein (270m) for cuffs (OPTIONAL), 3+ 100g (270m) of main colour(s) of 8 ply yarn. Just like the hook, because we go off your measurements, you can also change the ply of yarn!

Background Inspiration: Vienna was inspired by the song "Vienna" by Ultravox. The colours in the video tell a story with only blacks and whites and blues, and plus it is a good song :)

Pattern

This pattern is worked in four panels bottom up.

I Recommend measuring more than once just to make sure you have the best measurement.

We will be measuring the waist measurement, chest measurement (ALL the way around then divides by 2), and top of shoulder to where you would want the jumper to sit.

Keep in mind the sleeve will only go to around the elbow area so try not to add any more rows unless it does not reach to that area, as most of the body will naturally stretch to that area (refer to photos if need be)

Body- Make 2

The two main measurements you will need for this part is your waist and chest measurement.

Measure around your body and get those two measurements, then half it (as we will work 2 panels for the body)

Starting row- Chain the number of stitches that are needed to get to your measurement. Eg, my measurement required 62 chains, including chain 2.

1st Row- Chain 2, Half Double Crochet till end

2nd Row- Chain 2, *front post half double crochet in the next stitch, back post half double crochet in the next stitch*

repeat this process till the end of the stitches, making sure to put a normal Half Double Crochet into the Chain 2 from the previous row.

Repeat the 2nd row for the ribbing.

Do not worry if your stitches do not end on a back post half double crochet, but make sure for the next 4 rows (not including the 2 we just did) that you put the post half double crochets into the same front or back post one.

Pattern

Once you are done with the ribbing, this is when you will change colours if you want different coloured ribbing.

1st Row- Half Double Crochet across till end

2nd Row (increase) Chain 2, put 1 Half Double Crochet into the very first stitch to make the increase, Half Double Crochet till last stitch, put 2 Half Double Crochet into last stitch.

So, to increase, you only increase 1 stitch at both ends. Now increasing will depend on the difference on your waist measurement and bust measurement, but I do recommend increasing for 5 rows (without alternating rows) to get enough body, this is not a form fitting jumper, but it gives it enough space for volume.

Rows 3-6 (Increase rounds) Repeat row 2.

Rows 7-32 (Normal Half Double Crochet)- Chain 2, Half Double Crochet across.

Once you get to this point you can put it up against yourself to see if it is long enough for you or too long, as this is going to be at your shoulder down, so if you want to save the trouble of going back and forth you can measure from top of shoulder to where you would want the jumper to sit.

Sleeves X2

Measure your wrist and chain the required length. For example, I chained 35 stitches for a 7-inch circumference.

Pattern

1st Row- Half Double Crochet in the second chain from hook, Half Double Crochet till end

2nd Row-Chain 2, Front Post Half Double Crochet in the first stitch, Back Post Half Double Crochet.

FPHDC, BPHDC repeat till the end.

If your chain does not end this specific way it's alright, just make sure all stitches have their front post or back post the same to create the ribbing effect.

Repeat this process for 6 rows, including the 2 rows we just did, making sure to end on a wrong side row.

Main body of sleeve

(this is going to depend on your preference, for a kind of baggy look, follow all the rows of the increases, but if you want it less baggy, I recommend stopping the increases at the 6th row.)

1st Row- Chain 2, Half Double Crochet till end.

2nd Row (Increase row)- Chain 2, (Increase) Put Half Double Crochet in the very 1st stitch, Half Double Crochet till last stitch, put 2 Half Double Crochet into the last stitch.

3rd row- Half Double Crochet till end

10th row- As 2nd Row

4th row- Chain 2, as 2nd Row

5th row-Chain 2 Half Double Crochet till end

6th row- As 2nd Row

7th row - Chain 2, Half Double Crochet till end

8th row- As 2nd Row

9th row- Chain 2, Half Double Crochet till end

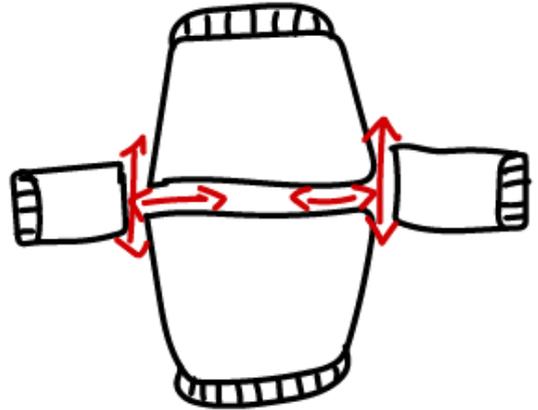

Rows 11-32- After these rows, you work straight Half Double Crochet back and forth.

Pattern

Sew everything together

How I am sewing up I am doing a blanket stitch and all the panels are inside out, but if you prefer a different sewing method go ahead.

Place the two body panels facing each other and the sleeves horizontal to the body panels, make sure you put half of the sleeve on both panels, and sew. Once you have sewn the sleeves on, continue sewing everything else.

Collar

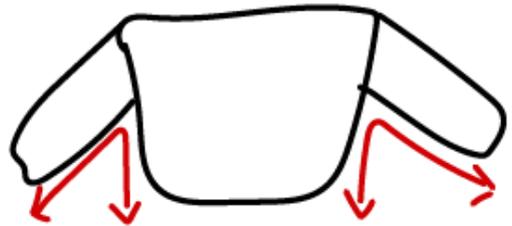

Attach yarn, Chain 2, Half Double Crochet for 6 stitches then decrease,

6 Half Double Crochet for 6 stitches, decrease

continue this until you are around.
Slip stitch into the Chain 2.

Rows 2-3 Chain 2 *Front Post Half Double Crochet, Back Post half Double Crochet*

Once finished, sew in ends and you are done!
